

Limited Warranty

WINCO blinds and window covering products are covered by a limited warranty against defects in materials, workmanship, hardware, and operating components when used under normal residential conditions. Warranty coverage varies depending on the product type and operating system.

- **Manual Control Blinds** Covered under a 5-year limited warranty from the date of installation or receipt against defects in materials and workmanship.
- **Cordless Blinds** Covered under a 3-year limited warranty from the date of installation or receipt against defects in the cordless operating system and fabric.
- **Motorized Blinds** Covered under a limited motor warranty based on the brand used.
 - Somfy Motors** Covered under a 5-year limited warranty for the motor only.
 - All Other Motor Brands** Covered under a 2-year limited warranty for the motor only, unless otherwise stated.

Note: This warranty covers manufacturing defects in manual control components, applicable motor components, hardware, and product materials, subject to the exclusions and service terms stated below.

What Is Covered

WINCO warrants its blinds and window covering products against manufacturing defects in materials, workmanship, hardware, fabric, and operating components during the applicable warranty period.

This warranty covers operating failure caused by confirmed manufacturing defects and may include repair or replacement of defective components at WINCO's discretion.

Replacement parts may be provided during the applicable warranty period when a manufacturing defect is confirmed by WINCO, subject to the exclusions and service terms stated in this policy.

What Is Not Covered

This warranty does not cover damage or issues caused by normal wear and tear, accidents, misuse, abuse, improper handling, product alteration, improper operation, rough handling, excessive force, impact, customer negligence, environmental conditions, or installation performed by third parties or others.

Fabric-related damage, including fabric telescoping, side-to-side fabric shifting, fabric rubbing, fraying, tearing, wrinkles, or fabric edge damage caused by improper operation, uneven pulling, side pulling, misalignment, uneven mounting conditions, window conditions, obstruction, or continued operation while the fabric is rubbing against brackets, end caps, cassette, bottom rail, or other components, is not covered under warranty.

Operating system damage, including damage to manual control systems, cordless spring systems, cords, tension systems, motors, motorized components, or related operating mechanisms caused by misuse, improper operation, rough handling, uneven pulling, side pulling, excessive force, obstruction, or failure to follow the proper operating instructions, is not covered under warranty.

Discoloration, fading, or deterioration caused by sunlight, wind, moisture, humidity, excessive heat, or environmental conditions is not covered under warranty.

Removal, shipping, reinstallation, service calls, travel charges, labour, and incidental or consequential damages are not covered unless otherwise stated.

WINCO Customer Satisfaction Policy

All WINCO blinds and window covering products are custom-made based on confirmed measurements, order details, and selected product specifications.

Once an order is confirmed and production has started, custom-made products may not be eligible for cancellation, return, refund, size change, colour change, or product change.

Installation and Delivery Services

Installation, delivery, measurement, on-site visits, additional labour, removal, reinstallation, correction work, or travel may be available upon request and may be subject to additional charges depending on location, distance, project size, order amount, product type, and job conditions. WINCO is not responsible for damage, malfunction, measurement issues, or installation defects caused by installation performed by others.

Return and Warranty Service Terms

All items are securely packaged for safe transit. If an item arrives damaged or missing parts, the customer must notify WINCO as soon as possible. Damaged items must be returned to the WINCO office within 14 days from the recipient date.

Returned items must be in brand-new condition and in the original packaging to qualify for an identical product exchange or store credit, unless otherwise approved by WINCO.

Used, modified, assembled, installed, sale, clearance, personalized, custom-made, cut-to-size, special-order, or customer-damaged products are not eligible for standard returns, refunds, or exchanges.

WINCO reserves the right to inspect the product and determine whether the issue is caused by a manufacturing defect, normal wear and tear, improper operation, environmental exposure, improper installation, misuse, or customer negligence.

WINCO's warranty obligation is limited to the repair or replacement of defective components confirmed by WINCO during the applicable warranty period.

IMPORTANT OPERATING GUIDE FOR CORDLESS BLINDS

WARNING: CENTER OPERATION REQUIRED

Cordless shades must always be raised and lowered by holding the center of the bottom rail.

Do not pull the shade from one side, forward, sideways, unevenly, or with excessive force. Do not yank, snap, force, or roughly operate the shade.

Improper operation may cause uneven internal tension, telescoping, fabric shifting, fabric rubbing against the bottom rail end caps, fraying, tearing, wrinkles, permanent fabric damage, damage to the internal cordless spring system, or operating failure of the cordless mechanism.

Proper Handling Instructions

Always hold the bottom rail at the exact center position when raising or lowering the shade.

Use a smooth, gentle, straight up-and-down motion only.

Keep the bottom rail level during operation.

If the shade feels stuck, uneven, or resistant, stop immediately and check for obstruction, misalignment, or fabric shifting before continuing.
